100%  
recyclable

Plastic  
free

Made in  
Germany

## Expert German Manufacturer

Bette have been manufacturing beautiful bathroom products for more than 70 years. In our factory in Germany, we create shower trays, baths and washbasins – all made from glazed titanium-steel and all with a thirty year warranty. Our manufacturing expertise and the exceptional qualities of our material are combined with award-winning product design and practical solutions to produce products of the highest quality.

## Special Material

Our glazed titanium-steel is one of the most durable and luxurious materials for the creation of bathroom products. The titanium-steel combines exceptional strength and stability with superior shape-ability, so we can create products that would not be possible in other materials. The enamel surface is so strong that Bette products stay looking beautiful for many years, and so smooth that dirt finds it hard to adhere, making our products also extremely easy to clean.

## Sustainable

Our shower trays, baths and washbasins are made from natural materials, without plastic and, where we can, we use carbon-neutral 'green steel'. Our products are also 100% recyclable. In addition, we have invested in green technologies in our factory and create a large proportion of our energy from renewable sources.

## UK Team and Fast Delivery

We have had a UK base and team for over 25 years, and we are available to answer any questions you may have. You can find our contact details on page 34.

# BetteAnti-Slip Sense

Included on all shower trays in this brochure.

- ✓ Revolutionary, invisible anti-slip surface
- ✓ The highest level of slip protection
- ✓ Extra safety without compromising style
- ✓ Smooth and easy to clean
- ✓ 30-year warranty
- ✓ Included on all shower trays
- ✓ Available on baths
